**RE: GEOTEXTILE ENTANGLED NET PRODUCTS MANUFACTURED BY ADVANCED BUILDING PRODUCTS, INC. AND OSHA HAZARD COMMUNICATION**

To Whom It May Concern:

Intertek-ATI has reviewed the Code of Federal Regulations, Title 29, Subtitle B, Chapter XVII, Part 1910, Subpart Z, §1910.1200 (e-CFR data current as of June 10, 2015) to determine if geotextile entangled net products manufactured by Advanced Building Products, Inc. are subject to such regulations. The following opinion is presented for consideration.

§ 1910.1200, sub-section (b) (6) (v) indicates that section 1910.1200 does not apply to an Article, as defined by sub-section (c):

*Article* means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, *e.g.*, minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

It is our opinion that geotextile entangled net products manufactured by Advanced Building Products, Inc. comply with the definition of an Article; therefore, section 1910.1200 does not apply. As such, a Safety Data Sheet would not be required.

Please do not hesitate to contact us if we can be of further assistance in this matter.

Sincerely,  
For Intertek-ATI:
